She has many motivations for wanting to serve on the board: as a senior citizen and grandmother of five, she personifies the current movement of building bicycle infrastructure that accommodates 'all ages & abilities'; as a resident of Seattle, she is committed to seeing Seattle replicate communities in our country and around the world where bicycling is actively supported as an environmentally sustainable and economically affordable mode of transportation. Kristi is a very active member of the SBAB and spent much of the last two years on the SBAB committed to ensuring the update to the Bicycle Master Plan included a network of facilities for all ages and all abilities, including neighborhood greenways and protected bike lanes, and strong policies regarding education, encouragement and enforcement.
